

Josue Hernandez Bravo

UX/UI & Interaction Design Lead · AI-assisted Product Design · Enterprise UX · CRO · Digital Transformation

Mexico City, Mexico · +52 55 7896 1610 · josuebravodi@gmail.com · linkedin.com/in/josuebravodi

PROFESSIONAL SUMMARY

UX/UI & Interaction Design Lead with 9+ years across Industrial Design and Digital Product Design, specializing in AI-assisted Product Design, Enterprise UX, Conversion Rate Optimization (CRO), UX Research, Design Systems, and Digital Transformation across Mexico, LATAM, and the United States. Experienced in consulting environments where business goals, technology constraints, stakeholder alignment, and user experience must work together.

CORE SKILLS

- **UX/Product:** UX Design · UI Design · Interaction Design · Product Design · Enterprise UX · B2B UX
- **AI/Strategy:** AI-assisted Product Design · AI Product Experience · Digital Transformation · Design Strategy · Consulting · Executive Storytelling
- **Research/CRO:** UX Research · Usability Testing · Heuristic Evaluation · Journey Mapping · Information Architecture · CRO · Behavioral Design
- **Systems/Tools:** Design Systems · Design Ops · Figma · FigJam · Miro · Maze · Unqork Designer · Agile · Implementation-aware Handoff

PROFESSIONAL EXPERIENCE

EY Studio+ — UX/UI & Interaction Design Lead (Supervising Associate · EY)

July 2023 – Present · Mexico City, Mexico

Lead UX/UI and Interaction Design workstreams within enterprise digital transformation initiatives across Mexico, LATAM, and the United States, connecting experience strategy, UX research, AI-assisted product design, CRO, design systems, and consulting.

- **Designed end-to-end UX for an enterprise AI-powered quotation tool**, leading interaction architecture, AI workflow design, and UX integration for a large-scale commercial transformation program.
- **Adapted conversational AI assistant prototypes for enterprise deployment**, translating React/TSX references into implementation-ready UX/UI specifications and design handoff while preserving interaction quality, usability, and visual fidelity.
- **Led UX/UI workstreams for enterprise transformation programs** spanning CRM, B2B Digital Commerce, omnichannel CX, and AI & Innovation across financial services, insurance, FMCG, and telecom sectors.
- **Defined scalable design systems and operational frameworks** to ensure cross-platform visual and functional consistency across web, mobile, TV, and enterprise interfaces.
- **Drove CRO-focused design improvements** by translating behavioral insights, usability findings, and analytics signals into clearer user flows and conversion opportunities.
- **Contributed to business development** through proposal decks, capability presentations, executive storytelling, and stakeholder alignment for C-suite and enterprise audiences.
- **Conducted and synthesized UX research**, including usability testing, stakeholder interviews, heuristic evaluations, behavioral analysis, and enablement initiatives across Studio+ LATAM.

Industries: Financial Services · Insurance · FMCG · Telecom · Energy · Retail

Tools: Figma · FigJam · Miro · Unqork Designer · Maze · Analytics · AI-assisted design and prototyping workflows

Totalplay — Design System Lead · UX/UI

March 2023 – July 2023 · Mexico City, Mexico

- **Led the development, governance, and evolution of Totalplay's digital design system** across web, mobile Android/iOS, and TV/10ft UI platforms within a large-scale digital transformation environment.
- **Built and maintained design system architecture**, component libraries, UI standards, and documentation to support cross-platform product consistency.
- **Partnered with UX, product, engineering, research, and strategy teams** to improve design quality, implementation alignment, and decision-making across digital initiatives.
- **Supported digital rebranding** by translating brand evolution into scalable interface patterns across physical and digital touchpoints.
- **Designed reusable UI components and omnichannel patterns** for telecom, entertainment, ecommerce, loyalty, financial products, and customer platforms.

PROFESSIONAL EXPERIENCE

Totalplay — Senior UX/UI Designer / User Interface Designer

December 2021 – July 2023 · Mexico City, Mexico

- **Designed end-to-end UX/UI flows** for telecom, entertainment, hospitality, loyalty, finance, ecommerce, and content experiences across web, mobile Android/iOS, and TV platforms.
- **Created user journeys, wireframes, prototypes, high-fidelity interfaces**, and interaction patterns for multi-platform product ecosystems.
- **Collaborated with researchers, strategists, analysts, product managers, and developers** in an agile digital factory model.
- **Contributed to digital transformation initiatives** including online stores, deliveries, credit products, social features, gamified content, and omnichannel services.

Coderhouse — Advanced UX/UI Design Tutor

October 2022 – July 2023 · Buenos Aires, Argentina

- **Guided students through UX/UI methods**, critique sessions, research, wireframes, prototypes, visual design, storytelling, and portfolio development.
- **Facilitated after-class sessions** to reinforce advanced UX/UI concepts while strengthening mentoring, communication, and learning experience design skills.

Industrial Design Experience — Senior Industrial Designer / Industrial Designer

Somatres · Cairos Studio · Siiviasa Imagen · Electrón 14 · ALEF Soluciones Integrales | July 2015 – November 2021 · Mexico City, Mexico

- **Built a strong foundation across product development**, visual merchandising, furniture, packaging, exhibitions, supplier management, sustainable design, production, and project management.
- **Managed end-to-end design and development projects**, coordinating resources, timelines, budgets, suppliers, production teams, and client stakeholders.
- **Developed systems-thinking skills** that now inform complex enterprise UX, including constraint management, delivery coordination, craft, and implementation feasibility.
